WORK EXPERIENCE

[Frontend Developer](#), (Freelance / Team project, 2024 – present)

DCarbon — Solar Energy Analytics Platform [Dcarbon](#)

- Developed a multi-page React application with React Router for seamless navigation (e.g., Partners page and Support).
- Built responsive UIs with Tailwind CSS, ensuring consistency across devices.
- Collaborated with UX designers to implement interactive data tables/charts for energy metrics.

Fundcirkle Admin Dashboard, Fintech Management System [FundCirkle Admin Dashboard DEMO](#)

- Designed a TypeScript-based admin panel with TanStack Query for optimized API state management.
- Reduced redundant API calls by 40% via query caching and deduplication strategies.
- Implement role-based views (e.g., admin vs. user) using React Router and protected routes.

More projects featuring React, TypeScript, Tailwind and API integrations.

- Collaborated with UX/backend teams across projects; details available on portfolio.
