

EMMANUEL UDUAK

FRONTEND ENGINEER

Email: Bishboy2spieking@gmail.com, Portfolio: <https://emmanuel-uduak.vercel.app>, LinkedIn: <https://www.linkedin.com/in/uduak-emmanuel/>

SUMMARY

Frontend Developer with hands-on experience building scalable, responsive web applications using React.js, TypeScript, and modern JavaScript. Skilled in translating complex requirements into intuitive user interfaces, integrating RESTful APIs, and managing application state with tools such as React Query and Redux. Strong collaborator with a proven track record of delivering high-quality, performance-optimized frontend solutions in agile, cross-functional teams.

TECHNICAL SKILLS

Frontend • ReactJS • TypeScript • NextJS • React Query (RTK)	• Redux • context API • Web accessibility & Performance optimisation • Zustand	Testing/Debugging: • Jest	Tooling and Workflow: • Git • Slack

PROFESSIONAL EXPERIENCE

Frontend Developer , Mango Zest Labs

Feb. 2026 - Present

- Built and iterated admin dashboards for users, bookings, service providers, property managers, finance (refunds/transactions), and audit, including shared tables and layout/sidebar improvements.
- Implemented verification / KYC verification requirements across admin configuration and client/property-manager compliance surfaces (banners, forms, services).
- Improved client **booking and payment UX** (payment details, booking fixes) and integrated **instant payment** outcomes (**success/failure screens**) with backend APIs.
- Built the merchant admin portal for Tradia’s e-commerce platform using Next.js 15, React 19, TypeScript, and Redux Toolkit (RTK Query) with token refresh and centralized API layer.
- **Implemented admin authentication flows** — login, OTP verification, password reset, invite acceptance — integrated with backend auth services.
- **Developed Merchant Management module** — searchable/paginated merchant directory, metrics dashboard, merchant detail screens, **suspend/reactivate**, **KYC/KYB & bank compliance** panels, and **audit/activity logs**.
- **Maintained code quality** via ESLint, Prettier, Husky/lint-staged, and TypeScript strict checks in a multi-app frontend monorepo.

Frontend Engineer, Nuedesk (Customer Support & Helpdesk Platform)

Sept 2025 - Jan 2026

- Built the Knowledge Base module, including article creation, category management, and customizable help center UI.
- Collaborated with backend engineers to ensure smooth routing, domain handling, and optimized content delivery. Collaborated cross-functionally with product managers, designers, and backend developers to ensure alignment with business goals and user needs.
- Developed UI customization features (themes, color systems, and layout options) for client branding.
- Implemented **Custom Domain Integration**, enabling DNS setup, domain mapping, and automated SSL provisioning.

Frontend Engineer, La Reine Gold Consulting

Jun 2025

- Built the entire frontend of the platform using React.js in collaboration with design and backend teams.
- Integrated REST APIs for dynamic content and built a fully functional, backend-connected contact form.
- Developed an internal content management dashboard for updating posts, pages, and academy materials.
- Added responsive layouts, animations, and UI enhancements to improve engagement and accessibility

Frontend Engineer, DCarbon

Sep 2023 - May 2024

- Developed a multi-page React application with React Router for seamless navigation.
- Collaborated with UX designers to implement interactive data tables/charts for energy metrics.

Frontend Engineer, Techroom

April 2022 - Feb 2023

- Taught HTML, CSS, JavaScript, and React.js to beginner developers, helping students understand responsive design, JavaScript fundamentals, and modern component-based frontend development.

EDUCATION

Frontend Engineering Training/ Certification

Feb 2023

Johns Hopkins University — HTML, CSS & JavaScript for Web Developers

- Core foundation in modern frontend development, including responsive layouts, DOM manipulation, and JavaScript fundamentals used in React/Next.js applications..

BAgric. Animal Science

May 2015 - May 2021

University of Uyo, Nigeria
